

FLOOR MACHINES AND ACCESSORIES

SATURN

LOW SPEED FLOOR MACHINES

No job is too tough for this rugged series of floor machines from EDIC. With its all-metal construction and steel planetary gear boxes, the Saturn can stand up to the heaviest workloads, yet the ride is surprisingly smooth and quiet. The low speed models are built specifically to handle the stress associated with stripping and scrubbing hard floor surfaces as well as bonnet cleaning and shampooing carpets. Features like the quick and easy handle adjustment, anti-fatigue design, and the exclusive "lockout lever" for safe two-handed start up make this machine operator friendly and a winner in every commercial setting. Available in six different models, there is a perfect low speed Saturn for any size job.

All Saturn floor machines are now available with an optional black powder-coated brush cover. All the same great features as our stainless steel models but at a more competitive price.

FEATURES

- All-metal construction assures durability.
- All-steel triple planetary gearbox provides heavy duty yet quiet operation.
- Dual-trigger negative pressure switch allows operator to run with either hand.
- Turn a 13-inch machine into a 20" or any other combination, by removing just four bolts.
- Exclusive "lockout lever" is designed so operator can safely activate motor with both hands on the grips.
- Wide-gripping handle locking mechanism guarantees a tight lock and smooth adjustment.
- Non-marking PVC bumper prevents marks on walls and furniture.

OPTIONAL ACCESSORIES

390AC	Shampoo tank for carpets
1601BR/1901BR	Pad driver with molded-in clutch plate
1603BR/1903BR	Two-piece pad driver
